Looking for a Summer Internship that is at the forefront of a new sector in Agriculture???

AgTech Scientific in Paris is looking for qualified candidates for a summer internship position in the Hemp Industry.

Job Description:

- Support the Director of Farm Services by helping manage workflow with growers.
- Support Quality Assurance Manager by helping extract samples and quality audits
- Learn Best Management Practices and implement with select growers
- Ensure that Growers follow Standard Operating Procedures (SOP's)
- Conduct Research trials developed by Mgmt.
- Keep accurate records for growers and AgTech.
- Report to Director of Farm Services

Qualifications

- Some Agronomy or Farm Experience with either row crops, tobacco, vegetable production, or animal agriculture
- Experience with Microsoft Excel, Word, and PowerPoint.
- Highly motivated with a willingness to get your hands dirty and participate in manual labor when needed
- Record Keeping Experience and detail oriented

If being a part of a new era in Agriculture sounds exciting and innovative to you, then seize the opportunity to join our team. Please email your resume to me by Friday April 19th. We will be hiring 10 interns for a summer internship from May through August with the opportunity to work after school hours during harvest season. Training will be provided before planting season.

Location: Paris, Cynthiana, and Falmouth areas. Each intern will be assigned 100-200 acres of Hemp to oversee and work with 1-4 growers of those acres.

Andy Bishop

Director of Farm Services
